STATE POLICE

Winter Survival

MAY 0 3 2004

Larry G. Trent, Director
Douglas W. Brown, First Deputy Director

IF YOU MUST USE YOUR CAR DURING A STORM ...

* Plan your travel, selecting both primary and alternate routes.

* Let someone know your travel routes and itinerary so that, if you don't arrive on time, officials will know where to search for you.

* Check latest weather information on your radio.

* Try not to travel alone - two or three people are preferable.

* Travel in convoy (with another vehicle) if possible.

* Drive carefully and defensively. Watch for ice patches on bridges and overpasses.

* If a storm begins to be too much for you to handle, seek refuge immediately.

* If your car should become disabled, stay with the vehicle, running your engine and heater for short intervals. Be sure to "crack" a window in the vehicle to avoid carbon monoxide build-up.

Reliable transportation is especially important in the winter. If you have a car, make sure it is ready for whatever winter may bring. Not only should your car be kept in top operating condition all year round - for safety and fuel economy, it is especially important to get it winterized to avoid any unpleasant or dangerous situation while traveling in frigid weather. The following should be checked:

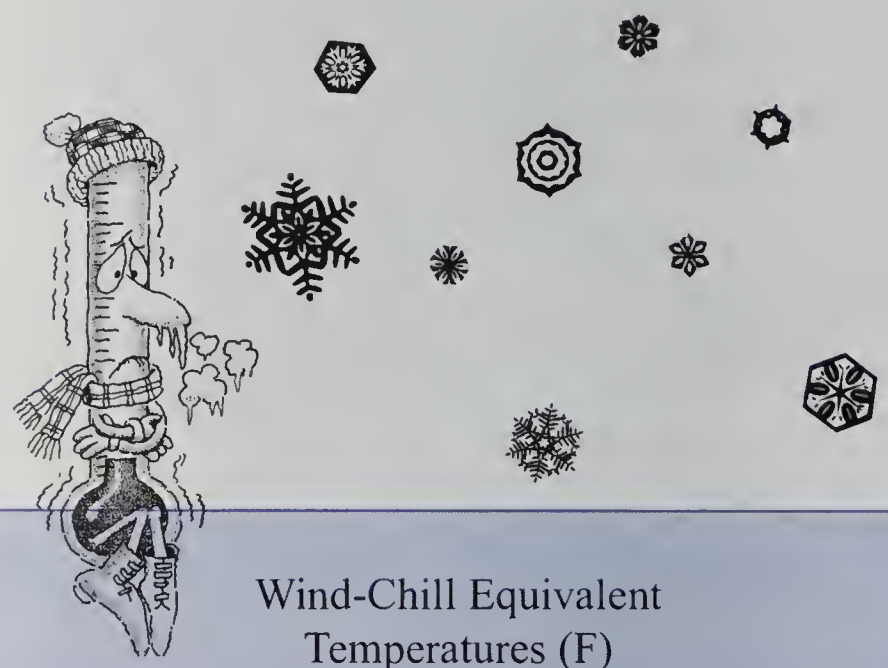
ignition system	fuel system	brakes
exhaust system	wiper blades	snow tires
tire tread	defroster	proper grade oil
cooling system	battery	lights
antifreeze		

Always fill the gasoline tank before entering open country, even for a short distance, and stop to fill-up long before the tank begins to run low. Keeping your tank as full as possible will minimize condensation, providing the maximum advantage in case of trouble.

A Citizens Band (CB) radio and/or cellular phone can be very useful to you or another stranded motorist in case of an emergency.

BE ALERT TO FROSTBITE CONDITIONS

Exposed skin can freeze within one minute at wind-chill equivalent temperatures below -25 F.



Wind-Chill Equivalent Temperatures (F)

Calm Air	At 15 mph	At 30 mph	At 40 mph and over
30	9	-2	-6
20	-5	-18	-22
10	-18	-33	-38
0	-31	-49	-54
-10	-45	-64	-70
-20	-58	-78	-87

Frostbite affects the extremities, such as fingers and toes.

If a body part has been frostbitten once, it is more susceptible to frostbite again, even in milder conditions.

Redness and a burning sensation are indications frostbite will occur unless the extremity is warmed.

Numbness is an indication that frostbite has already taken place.

If frostbite is discovered, hold the affected part tightly against the warm skin on another part of the body; (for example place frozen fingers under arm).

When thoroughly warmed, keep covered and make an effort to keep area from freezing again.

HYPOTHERMIA

When the body begins to lose heat faster than it can produce it, a condition called hypothermia begins to develop. The symptoms become very apparent, and include:

uncontrollable shivering
vague, slow, slurred speech
memory lapses
incoherence
immobile, fumbling hands
frequent stumbling
lurching gait
drowsiness
apparent exhaustion

REGIONAL ROAD CONDITIONS

The Illinois State Police maintains public telephone numbers providing highway condition information from November 15 through March 31st. The numbers are as follows:

District		
1	**Sterling**	815/632-4033 815/632-4032
2	**Elgin**	847/931-2395 847/931-2396
Chicago		708/294-4701
5	**Joliet**	815/727-5471
6	**Pontiac**	815/844-1500 815/842-4347
7	**Rock Island**	309/755-7011
8	**Peoria**	309/673-8245
9	**Springfield**	217/786-7610
10	**Pesotum**	217/265-0050
11	**Collinsville**	618/346-3636
12	**Effingham**	217/347-2719 217/347-2723
13	**DuQuoin**	618/542-8432
14	**Macomb**	309/833-4613
15	**Oakbrook**	(Toll Roads) 800/865-5394
16	**Pecatonica**	815/962-7051
17	**LaSalle**	815/224-3030
18	**Litchfield**	217/324-3100
19	**Carmi**	618/382-8878
20	**Pittsfield**	217/285-5445
21	**Ashkum**	815/698-2112
22	**Ullin**	618/845-3744

COFFEE CAN SURVIVAL KIT ...

Here's how to make your own:
2 or 3 pound coffee can (punch 3 holes at the top of can, equal distance apart)

60-inch length of twine or heavy string (cut into 3 equal pieces - used to suspend can)

3 large safety pins (tie string to safety pins and pin to car roof interior to suspend can over candle)

1 candle 2" diameter (place on lid under suspended can for melting snow)

1 pocket knife, reasonably sharp (or substitute with scissors)

3 pieces of bright cloth 2" wide x 36" long (tie to antenna or door handle)

Several packets of soup, hot chocolate, tea, bouillon cubes, etc. (mixed into melted snow to provide warmth and nutrition)

1 small package of:
peanuts (provides protein) & fruit-flavored candy (orange slices, jelly beans, etc.-avoid chocolate)

1 pair of athletic socks (cotton) and 1 pair of glove liners (cotton)

2 packages of book matches

1 sun shield blanket or 2 large green or black plastic leaf bags (to reflect body heat)

1 pen light and batteries (keep separate)

When complete, place stocking cap over kit and carry in passenger compartment of car. If you have a 3 pound can, you will still have additional room for band-aids, aspirin, small radio, etc. If there is still room left, increase the quantity of any of the above items or improvise items you feel might be necessary. Remember hypothermia (rapid loss of body temperature) can happen to anyone!

Stay in your car until help arrives!

To schedule a Traffic Safety program for your school or group please contact the Safety Education office at (217) 524-2525 or your Illinois State Police District Headquarters.
